Richard Hubler
Director, Land Use & Building Department, Alamosa County
1101 16th St, Alamosa, CO 81101

Dear Mr. Hubler:

Adapture Renewables (Adapture) has completed extensive community outreach during our development of the Haynach Solar Hybrid Project (Project) over the last year. These efforts have been in support of our County 1041 Application. Our outreach efforts included:

- Alamosa Round-up Rodeo (June 2025)
- Public Open House (September 2025)
- Direct Local Landowner Outreach

[Alamosa Round Up Rodeo](#)

In June 2025, Adapture hosted an informational booth at the annual Alamosa Round-up Rodeo event in Alamosa, Colorado. As part of this booth, Adapture staff distributed informational brochures about the Project and met with interested citizens about solar projects (Figure 1). Adapture also provided sponsorship for the event (Figure 2)

Public Open House

In September 2025, Adapture hosted a public open house at the Alamosa Family Recreational Center in Alamosa, Colorado. The event included posters presenting information about the project, 1041 permitting and solar power. The event was attended by neighbors, interested stakeholders, and staff from Alamosa County Planning department.

Landowner Outreach

Adapture has contacted landowners around the project and provided information about project development to them. Adapture staff also provided email and phone contact information to landowners and remain available for questions.

The following landowners have been contacted by our team:

- Courtenay Cortez (November 2025): Discussed project on phone call and provided project information via email.
- Robert Berry (September 2025): Discussed project on phone call. Mr. Berry expressed concerns about construction delivery routes and dust.
- Amy Holland (October 2025): Discussed project on video call. Ms. Holland expressed noise and visual impacts and construction dust impacts.
- Arthur Holland (November 2025): Discussed project on phone call. Could not attend public open house, but was emailed posters from open house.
- Danny Neufeld (November 2025): Multiple calls have been made, but Mr. Neufeld has not answered or returned our calls.

Adapture will continue to make staff available to answer questions via phone, email, or in person throughout the development, construction, and operation of the proposed Haynach Solar Hybrid Facility. We will work to address stakeholder concerns and continue to support local community events. Our goal is to establish ourselves as a community partner and valuable resource to the surrounding area.

Sincerely,

Luis Meneses
Development Manager
Adapture Renewables
